

MEDIA RELEASE

Proposal to build a 'Mini Sports Hub' in Tampines West under the Neighbourhood Renewal Programme

- **Temporary Futsal Courts**
- **Interactive playgrounds and Fitness areas**
- **Landmark features and Landscaping**

29 November 2015 - Residents in Tampines West Neighbourhood (Block 821 to 829, 887 to 889A, 891 to 899A) can look forward to the rejuvenation of their estate under the Neighbourhood Renewal Programme (NRP). Proposed improvements include interactive play and fitness facilities, covered linkways, drop-off porches, jogging track, enhanced open spaces for community bonding and new design and functional touches to facades.

These new improvements bring to life the potential of Tampines West Neighbourhood to create a more sporting, recreational and interconnected communities, efficient neighbourhood to improve public satisfaction and foster social cohesion.

The area comprises 35 blocks with a total of 2521 residential units. The blocks were completed between the year 1984 to 1988.

NRP will only proceed if there is 75% support from residents. The total budget for this NRP project is about \$8.5million, including project cost and professional fees.
